Barb Berling RN 585- 4294

Presenter: Dave Jenks
Target Audience: CAPANA members
PACU RN’s/SDS RN’s/ICU RN’s

Objectives of this Activity: Learners will be able to:

1) Identify 3 criteria for TCAR surveillance project eligibility.

2) Describe the appropriate care of a patient undergoing TCAR procedure pre-op; intra-op post procedure and management of potential complications.

3) Differentiate between TCAR procedure and traditional carotid endarterectomy including complication rates and length of stay.
