

CAPANA REPORT/AUGUST 2021

CAPANA has been inactive since March 2020 due to covid. The board is meeting this week to discuss/ ways to promote interest in organization and active participation of members. We hope to come up with a plan!

PS: We sent an invitation to members that might be interested in being more active in the organization inviting them to attend our August 4th board meeting to help plan activities. We did get positive responses, although no one could attend our meeting. The board planned tentative activities for CAPANA including a social activity "happy hour" in September for all members to generate interest in CAPANA, a virtual zoom meeting November 6th (we are asking Sally Morgan to present her talk that we had originally planned for February), and another meeting in February 2022. We decided to try quarterly meetings instead of monthly. It was a very fruitful meeting and made all who attended feel better about the future of CAPANA!

Respectfully, Sharon Gallagher, RN, CAPA
