

DAPANA District Meeting Minutes
April 27, 2019

Attendees: 9

Educational offering:

DAPANA offered two speakers. Cherilyn Stati, MBA, BSN, RN were from 3M Clinical and Chris Link, APRN from Acelity/KCI... Cherilyn offered one contact hour from 3M Clinical for her topic, *Hypothermia and Core Monitoring throughout the Perioperative Journey*. It was noted that pre-warming a patient 30 minutes prior to surgery will help prevent hypothermia, anxiety and surgical site infections (SSI). Chris gave a wound vac demonstration with troubleshooting on Prevena devices it was noted that to decrease SSI the device needed to be closed to negative pressure. No contact hours were given for the Prevena presentation. Both speakers gave great information that could be applied to our field of practice. Remember programs offered by DAPANA are free to ASPAN members and student nurses and only \$10 for Non-members. Breakfast is provided and for this meeting we thank Brandy for her delicious breakfast casserole as well as Bonita for the coffee!

Business meeting:

President's report: The meeting was called to order at 0830 by DAPANA president Brandy Mather. Brandy was presented with a thank you gift from the board for her support, commitment and contributions as DAPANA president over the last 4 years! Thank You Brandy!

Our 2019-2020 officers:
