Ohio SB 3

Signed by the Governor in July, this bill enables Ohio to join with the other “Nurse Licensure Compact” (NLC), an agreement with other member states enabling those eligible a multi-state license to practice in the other 35 member states. This is effective January 1, 2023.

Neighboring states of Kentucky, Indiana, and West Virginia are part of NLC. No additional license would be required. This will make it easier, less costly and less time consuming for nurses desiring to practice in NLC states.
